SUMMARY

B.Sc. Computer Science graduate with a passion for full-stack development and a drive for continuous learning. Proficient in frontend technologies including HTML, CSS, JavaScript (with React), and backend development using Node.js with Express.js. Skilled in database management with MongoDB and experienced in API testing with Postman. Proven ability to learn quickly, collaborate in teams, and solve complex problems.

EDUCATION

B.Sc. in Computer Science, Saradha Gangadharan College (GPA: 7.03)

Jul -2023
Puducherry, India

EXPERIENCE

Tonyshive - HRMS (intern)

(Ongoing)

- Developed a comprehensive HR Management System (HRMS) with modular components.
- Utilized Node.js, Express, MongoDB, React, and Redux for scalability and efficiency.
- Implemented robust functionalities for employee management, payroll processing, and document handling. Integrated role-based access control and data encryption for enhanced security.

SKILLS

Languages: JavaScript, HTML, CSS , Node.js.

Framework/Library: Bootstrap5, ReactJS, Redux, Express.js.

Tools: Git, GitHub, Postman.

Databases: MongoDB.

Platforms: Windows, Visual Studio Code.

PROJECTS

Hospital Management (Collage Project)

Dec - 2022

- Developed a user-friendly web page using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL.
- Designed to streamline hospital operations, the system allows users to manage patient records, schedule appointments, and handle billing processes efficiently.
- Implemented features to provide transparent and up-to-date information about hospital services, including patient profiles and available appointments.

Yummy Food [Link](#)

Jun - 2024

- Developed a visually appealing web page using HTML, CSS, JavaScript, and Bootstrap.
- Cloned a popular food service website to showcase various food items, menus, and ordering options.
- Designed to provide a seamless user experience, featuring interactive elements for browsing menus, placing orders, and exploring food categories.

Simple Calculator [Link](#)

Nov - 2023

- Developed a straightforward and user-friendly calculator using HTML, CSS, and JavaScript.
- Designed to perform basic arithmetic operations such as addition, subtraction, multiplication, and division.
- Utilized JavaScript for handling mathematical calculations and updating the display dynamically.
